Id	How many computers are in your home?		In your work or home life, which of these do you ever use:							On an average work day, how many emails do you get?		How often do you reply to emails using a phone or tablet whilst away from work?		Does your university provide you with, or make a financial contribution to your mobile device (s)?	If your university paid a contribution to your broadband provision at home, would it make you happier to work from home 'after 5pm'?		How experienced would you say you are, as a digital device user?		Which software (if any) do you often use?											I need your name	I need your email	Just to let y
