

12	What do you do for your main work?	Where do you work?	How many devices do you generally use to access the Internet?										Could you easily exist without the Internet at home? (0=No, 1= Yes)	How often do you work from home, either for part of the day, or all day?	In your weekly work life, how much of your work does to away from your desk?	My smartphone is more important than my desktop computer	If there was one thing that would really improve your work life balance in relation to technology, what would it be?	I need your name	I need your email	Just to let y
